These Coppin State University Students Remade This Cafeteria Photo From The 1970s

In honor of Black History Month, a group of students at Coppin State University got together to reenact a photo from the 1970s that was shot at their school.

Time and styles change but it is beautiful that the experience of HBCU students has stayed the same throughout the decades.

Both the photo from the 1970s and the photo from 2020 highlight the funny, friendship and excitement of the undergrad experience.

Check out the photo that was organized by [@TheCoppin](#) below.

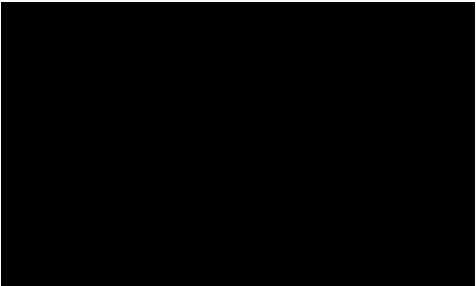

**Share this on Facebook if you think
these students deserve to go VIRAL**
